Dr Atta Science Council in Malaysia

STAFF REPORT KARACHI: In order to disseminate knowledge and promote a knowledge culti- vate among the young generation, HSEF had held a two-day research competition “All Pakistan Students’ Research Seminar” among the young talents of the country.

The research seminar pro- vided an opportunity for students to bring forward their talent by presenting technical papers. Through this seminar, HSEF focused on these stum- mers by providing them a plate- from to bring the forefront of research at an early level.

The event was organized in collaboration with Pakistan Air- line Engineering College, DHA.

On the occasion, redactional papers were selected from a num- ber of almost all the IT uni- versities of Pakistan. After evalu- ating the papers, the papers were selected for presentation at the seminar. Among these papers the best two papers were announced at the end of the seminar. Presenters of the best two papers received gold and silver medals and cash prizes.

Johan Arts, President, Pak- istan Software Houses Association, Pakistan on their skills are urged to change and manage the need for initiative and new.

“The event was great and the achievement and would prop- erly the next to new technology and increasing the research capabilities,” said the participants of the seminar.

“KESC’s,” the Biogas Project will offer solutions to par- ticipants in new agriculture, organic, poultry, and the KESC B. Senior Consultant, Mr. Shahid Ullah shared the experience of new seminar last week.

He said that the project will be continued to create sustainable 2M new systems of renewable and is expected to be functional in the next 15-20 months.
